SPRAY OIL

For flares

Cod: LUBRIFAST100

DESCRIPTION

This spray lubricant is recommended for oil tubes before flaring them. It is compatible with all gases in the market. It is also suitable for instruments lubrication. Available in 200 ml version (or in practical oiler format 130 ml on request).

INSTRUCTION FOR USE

- Identify the area to be lubricated.
- Push the nozzle.
- Spray on the surface an appropriate quantity of oil.

SAFETY INFORMATION

Protect from direct sunlight. Do not expose to temperature exceeding 50°C/120°F. Keep away from sources of ignition. No smoking. Do not spray on a naked flame or any incandescent material. Keep out of reach of children. In case of contact with eyes, rinse immediately with plenty of water. Store in a cool, dry place. Do not puncture, pierce or incinerate, even after use.
